EDUCATION

Madan Mohan Malaviya University Of Technology

Nov 2022 – Present

B.Tech- Computer Science And Engineering

Mother Teresa Academy

April 2020 – Mar 2021

CBSE -XII - 91.6%

WORK EXPERIENCE

DevPhant Informatica

Feb 2026 – Present

Full Stack Developer Intern

Remote

- Led end-to-end development of Customer and Order modules, converting Figma designs into pixel-perfect, responsive interfaces using Next.js, delivering 10+ production features.
- Designed and implemented 15+ RESTful APIs using Spring Boot, ensuring seamless frontend-backend integration and improving data flow efficiency.
- Optimized application performance and responsiveness, reducing page load time by **30%** and enhancing cross-device user experience..

Carbon Clock

MAY 2025 – SEP 2025

Full Stack Developer Intern

Remote

- Independently designed and developed a full-stack web application, managing complete SDLC from design to deployment, delivering 15+ core features.
- Led the enhancement of existing features and frontend refinements, resulting in a **30%** faster load time and a more intuitive user experience.
- Collaborated with cross-functional teams to integrate RESTful APIs and ensure seamless end-to-end functionality across frontend and backend systems.

PROJECTS

QuickStay 🔗 | [MERN](#), [Clerk](#), Full Stack project

- Developed a full-stack hotel booking web application (Quickstay) using the MERN stack, supporting over **10+** dynamic pages for browsing, booking, and managing hotel rooms
- Integrated Clerk authentication with **100%** secure login/signup flows, reducing authentication setup time by **40%** using pre-built UI components.
- Engineered admin dashboard to manage **50+** bookings and **25+** room listings with real-time updates.

Imagify-AI Image generator 🔗 | [MERN](#), [Fetch API](#) / [Axios](#), [Tailwind CSS](#)

- A full-stack AI image generator using MERN stack + ClipDrop API, enabling users to convert text prompts into AI-generated images.
- Implemented JWT authentication and MongoDB-based user system, supporting secure login and storing over **100+** user accounts.
- Integrated a credit system (**5** free credits/user) with paid top-up and deployed app via [Render](#) [Vercel](#) using ClipDrop AI, achieving **5s** image generation and **40%** boost in engagement.

SKILLS

Languages: Java, Python, JavaScript, SQL, HTML CSS, .NET, C#, Spring Boot

Libraries/Frameworks: NodeJS, ExpressJS, ReactJS, Tailwind, Mongoose, Redux Toolkit, Sockets

Developer Tools: VS Code, Git, Postman, AWS(EC2)

Other: Data Structures Algorithms, DBMS, OOPS Concepts, Web Development, GitHub

ACHIEVEMENTS

- Top-5 in Machine Learning Course 🔗
- Solved **500+** DSA problems on platforms like LeetCode, CodeChef, and GFG.
- Cleared TCS CodeVita Round 2 (2025)

EXTRACURRICULAR

Google Developer Groups

July 2023– Feb 2026

Technical Assistant

- Organised a 12-hour hackathon with the team under IMMERSE'24 ,fostering collaboration and innovation and coordinated workshop and seminars to enhance technological advancement and skill development within the community.
